## Spartan Debate Team Gives UCLA Clinic Demonstration

Amy Rodney and Sally Morris, members of South High's debate teams, were selected to give a demonstration debate at the University of California at Los Angeles last week.

The two girls debated two students from Santa Monica High School on the subject, "Resolved: That Nuclear Weapons Should be Controlled by an International Organization." The Spartan team defended the affirmative side of the question.

Barbara Bingham, also a South High student demonstrated oratorical interpretation to the representatives of some 40 high schools during the UCLA sessions.

The clinic, an annual event, is sponsored by UCLA so that high school students may see top speakers and learn about high school speech tournaments.

## Carson Acreage To Be Developed

The Tudor Land Company was granted subdivision approval by the regional Planning Commission to develop 132 acres located south of Sepulveda Boulevard and east of Normandie Avenue into 707 single family residence lots. The property is located in the Carson district.

## Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by a doctor's observations. Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where a doctor's observations were continued over a period of many months! In fact, results were so thorough that sufferers were able to make such astonishing state-

ments as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne)—the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called Preparation H. Ask for individually sealed convenient Preparation H Suppositories or Preparation H Ointment with special applicator. Preparation H is sold at all drug counters.
